Nature Garden

asis

Come and visit the richest classroom of all, Nature.

Individuals, schools, groups and parties welcome. Skilled environmental play leaders are here to provide fun learning experiences.

We can adapt visits to suit your needs.

Environmental Education

We offer curriculum linked workshops tailored to the needs of your class.

- QCA science schemes of work come alive. The garden is full of opportunities to put learning into practice or to be inspired and get creative.
- We provide forest school sessions that support and develop emotional and social wellbeing.
- Wild about food? Experience outdoor cooking, grow and harvest your own food. Test your sense of smell with different herbs. Plant a seed to take home.
- Learn about the impact of human-beings on the environment and the small changes every one can make to limit this.
- Take a tour of the garden on our educational trail. See beetles, bugs, plant-life, birds, and have fun pond-dipping.

Environmental Play Project

Go wild or unwind at the garden. Child centred natural and imaginative play activities are available to individuals, groups and parties.

- Play games like hide and seek or food chain chase. Have fun racing snails, hunting for treasure, or digging in the sand and mud pits. Get imaginative and dress up, have your face-painted and much more.
- Seasonal arts and crafts activities include pumpkin carving, Easter egg painting, and tree decorating.

We are open for groups visits on weekdays and run supervised play sessions open to individuals. Group bookings from £30.
